Ports do not only play an important role in connecting regions, creating jobs and growth, they can also contribute to delivering carbon neutrality and the European Green Deal. They have the potential of becoming gateways of sustainable blue economy, key hubs in delivering clean energy, green transport, circular economy and digital transformation. Baltic Sea ports are at the forefront of this process and this seminar will seek to outline current developments, future visions and ways to support the transition in the region.

10:00 – 10:05 Opening remarks by MEP Henna Virkunen

10.05-10.40 Session I: Ports as hubs for the blue economy and regional development – EU vision vs. state of play

Introduction and moderation by MEP Niklas Nienass

- **Felix Leinemann**, Head of Unit Maritime Policy and Blue Economy, DG MARE, European Commission - The European Commission's new approach for a sustainable blue economy - what's in it for ports?
- Prof. **Maciej Matczak**, Director of Maritime Institute at the Gdynia Maritime University - Maritime ports as a driving force for sustainable development of the regional economy and society
- **Bogdan Ołdakowski**, Secretary General of Baltic Ports Organization - Baltic (larger and smaller) ports – paving the way for green and blue future

Questions and Answers
