LSW

Atlantic Interoperable Services

Context (MoS + TEN-T)

Infrastructure challenges

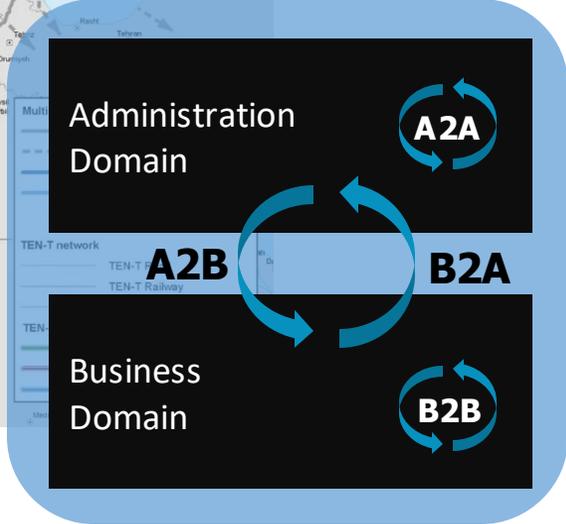

- Coordinated development
- Core network as driver

Infostructure challenges

- Focus on the Client
- New ways of seeing Collaborative logistics

Digital transformation on D2D logistics Acting on the **infostructure**

Survey on Clients expectations

Improve visibility across supply chain

Added value e-services: Sourcing of optimized D2D multimodal service Solutions

Improve Processes simplification / harmonization

e-booking

Offer of collaborative logistic solutions (SME inclusive) – LSP service Network

Better support for: risk insurance, documentary credit

Global
Collaborative
Logistics

The LSW is a marketplace of business interoperable platforms, developed and supported by several organisations and commercial contexts, capable of providing its clients with an integrated offer of sustainable and optimized D2D logistics

Atlantis marketplace of LSW platforms

This is the way we believe MoS services should be offered to trade clients

United Kingdom
LIVERPOOL

Atlantis

Portugal
LEIXÕES

France
BREST

Scope

- ... door-to-door services
- ... in those commercial scopes
- ... involving concurrent options
- ... covering also micro and small companies

Mission

To provide this offer through LSW to trade clients with the purpose of:

- ... improving fair competition with strong agility
- ... speeding up trade business
- ... allowing players to sell CIF or DDU or DDP
- ... enabling carbon footprint measure D2D
- ... powering cheap and fast execution visibility

07/03/2017

Co-financed by the European Union
Connecting Europe Facility

...innovating logistics

Each step at the hinterland

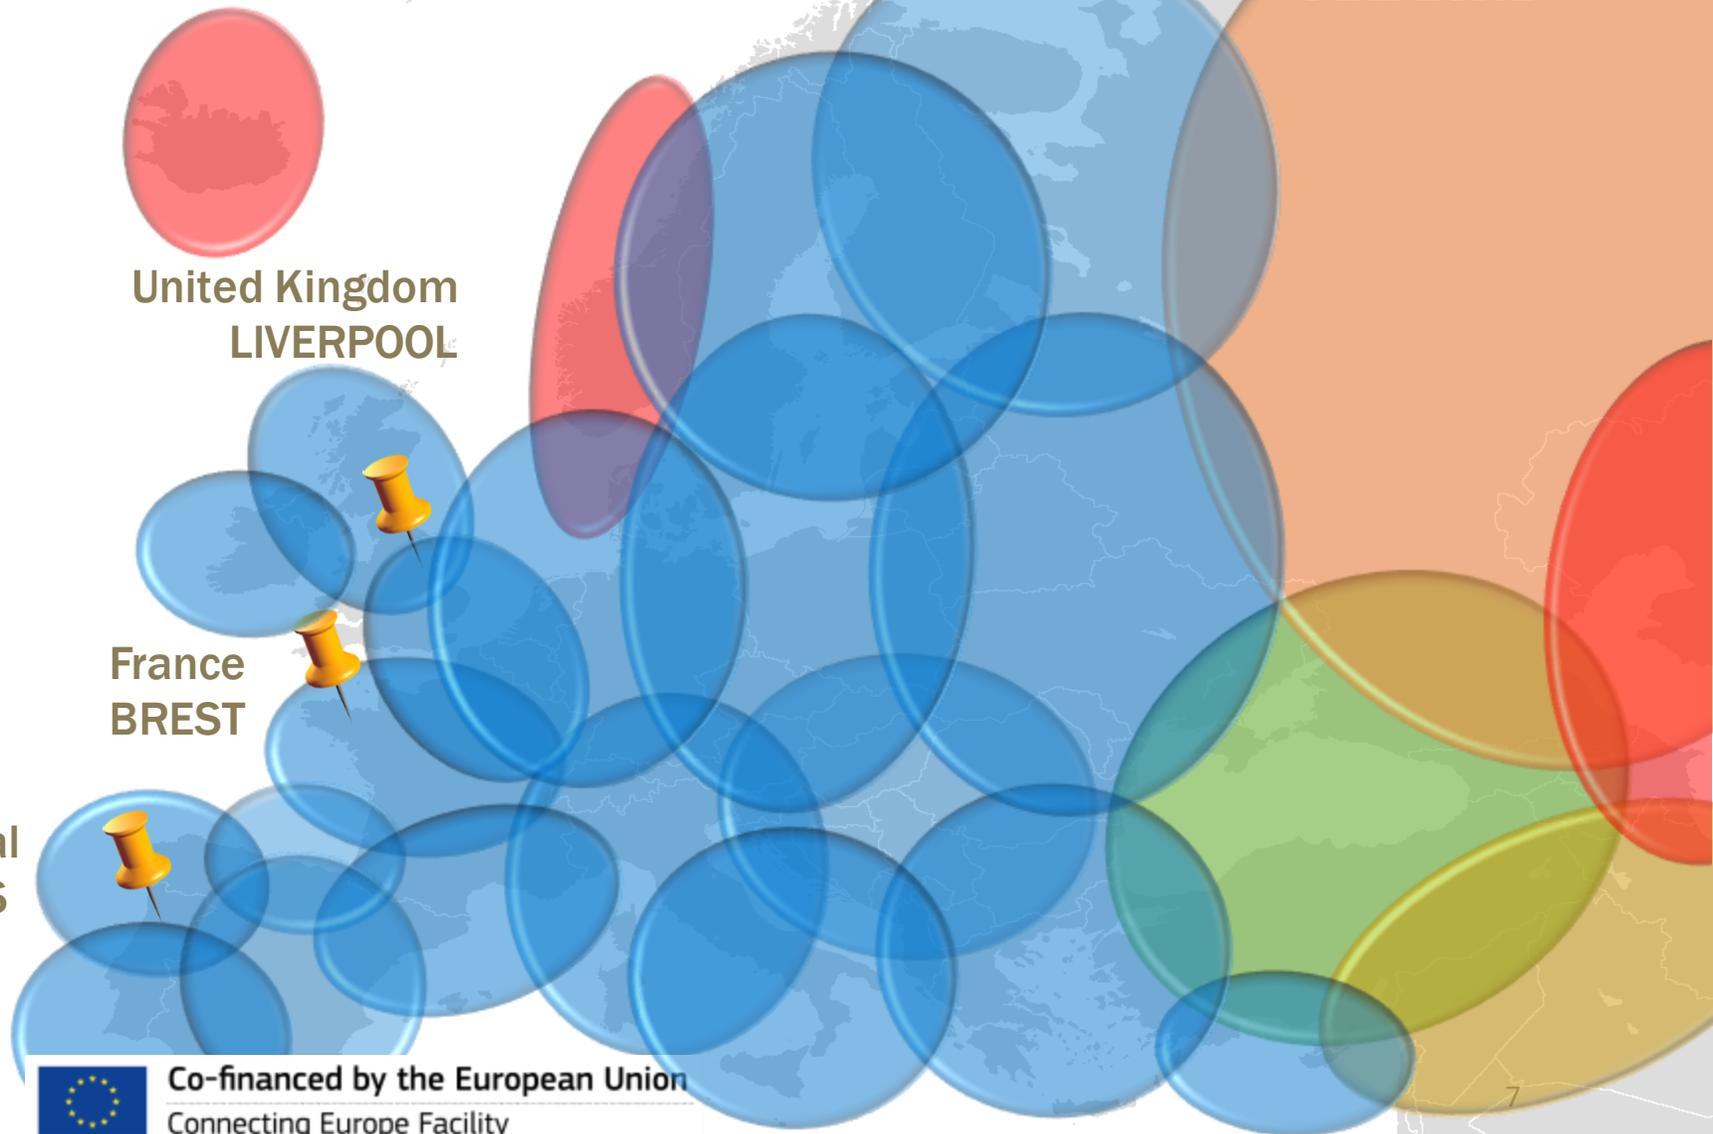

optimizes the hinterland logistics
allows shippers to sell FOB, and
with shipping portals to sell CIF

Foreland compatible initiatives

optimizes the foreland logistics
allow to sell DDU or DDP
enhances the D2D mission

Carbon footprint

LSW allows gathering just
for that business
particular environmental
costs, even when shippers
source for solutions

- **ISO/IEC 19845:2015**
 - Usage of Universal business language (UBL v2.1)
 - **e-Freight common framework** (EU project) contributed to better adapt the standard to the business reality
- **Connecting Europe Facility (CEF) eDelivery**
 - Exchange electronic data across borders between entities (public/private)
 - Interoperable, secure, reliable and trusted
 - European Union single market which is fit for the **digital age**
 - Creation of a **new profile for transports and logistics** (a LSW contribution)
- **Digital Agenda for Europe / Digital Single Market**
 - Online activities under conditions of **fair competition**
 - Better access for consumers and businesses to digital goods and services across Europe
 - Creating the right conditions and a level playing field for digital networks and **innovative services** to flourish
 - Maximizing the growth potential of the **digital economy**

ISO standards help to
**reduce costs, increase
productivity and access
new markets**

New **profile for transports
and logistics**

**Fair
competition**

- **Need for a deep discussion on Governance issues**
 - Sustainability rules: LSW platforms will be able to apply Taxes and manage **eco-bonus**
 - Accreditation and Certification: who is able to publish services? Under what conditions?
 - Liability issues. Is there some lack in regulation?
 - Interoperability with Public Bodies. What levels of visibility?
 - How to manage the marketplace patterns and its tools evolution?
- **Intermediate layer to set the goals for LBS interoperability algorithms**
 - Location Based Services must act locally, following a plan to reach the interoperability pattern
 - Member State rules differ, all throughout the core network corridors
 - Still exist needs for public funding
- **Dissemination strategy needs strong policy and commitment**
 - European Parliament has a key role on establishing and following the strategy
 - The first step will be to apply efforts to perceive the state of the art

Our team is available to attend the SEARICA and MoS Coordinator agendas for a detailed demo session.

Discussion on
governance
needs to be done

Local initiatives
need public
sponsoring

Thank you very much
